

ARKA KUILYA

Web Developer Intern

+91 75840 62982 | arkakuilya79@gmail.com | Haldia, East Medinipur – 721603

GitHub: github.com/arka79 | Portfolio: arkakuilya.in

OBJECTIVE

Detail-oriented B.Tech Computer Science student (2024–2028) with hands-on experience in data handling, CRUD operations, and database management using MongoDB. Seeking a **Data Management & Analysis** internship to apply skills in data collection, organisation, processing, and reporting while gaining industry exposure in data-driven environments.

EDUCATION

B.Tech – Computer Science & Engineering

Adamas University

2024 – 2028 | Pursuing

Higher Secondary (Science)

Kolaghat Thermal Power Plant High School (88%)

2022 – 2024 | Completed

RELEVANT SKILLS

Data & Database Management:

MongoDB (CRUD, schema design, queries), Structured data handling, Data cleaning & organisation

Data Analysis & Reporting:

Logical analysis of datasets, Pattern identification, Data-driven reports, Excel / Google Sheets

Programming & Scripting:

JavaScript (data manipulation, array/object ops), C, Java, Python basics

Backend & APIs:

Node.js + Express.js REST APIs for data collection, JSON handling, API response parsing

Frontend Visualisation:

React, HTML, CSS — data dashboards and responsive data-display UIs

Soft Skills:

Analytical thinking, Attention to detail, Fast learner, Time management, Team collaboration

PROJECTS

To-Do App — CRUD Data Manager

MongoDB · Node.js · Express.js ·
React

- Implemented full Create, Read, Update, Delete (CRUD) operations on structured task data.
- Designed MongoDB schemas for persistent, queryable data storage.
- Built RESTful API endpoints (Node.js/Express) to serve and manage data efficiently.
- Developed responsive React frontend for intuitive data entry, display, and filtering.

Portfolio Website

HTML · CSS · JavaScript

- Organised and structured personal project data for clear, searchable presentation.
- Applied modular, clean-code principles for maintainable content management.

Esports Team Website

Custom UI · HTML · CSS · JavaScript

- Managed and displayed structured team/player data with a dynamic custom interface.
- Demonstrated ability to categorise, filter, and present data meaningfully.

Music & Gaming Websites

HTML · CSS · JavaScript

- Curated and rendered content data in structured, user-friendly layouts.
- Ensured consistent, responsive data presentation across all screen sizes.

EXPERIENCE

Fresher — Self-Directed MERN Stack Developer

2024 – Present

Independent Practice

- Built and managed data-driven full-stack applications independently using MERN stack.
- Practised data modelling, schema design, and efficient querying in MongoDB.
- Applied clean code and data-organisation principles across all projects.
- Actively seeking internship opportunities to gain industry data management experience.

TOOLS & TECHNOLOGIES

Category	Tools / Technologies
Database	MongoDB, JSON, REST APIs
Programming	JavaScript, C, Java, HTML, CSS
Frameworks	React, Node.js, Express.js
Data Tools	Excel / Google Sheets, VS Code, Git & GitHub
Concepts	CRUD operations, Data modelling, Data cleaning, Report generation

LANGUAGES

Spoken: English, Bengali, Hindi

Coding: JavaScript, C, Java, HTML, CSS, Node.js, Express.js, MongoDB

HOBBIES & INTERESTS

Cycling · Gaming · Running · Building side projects · Exploring data tools
